WHARF AND WAVE.

The Oceanic from San Francisco, and the Arawa from the Colonies, are both due today.

The Iwalani will be laid up for week or two undergoing repairs. She will go on the Marine Railway tomorrow.

The new Inter-Island steamer is expected to arrive here about October 15th. The vessel has not been named yet.

The Aloha is due from San Francisco. She has on board about twenty head of horses and mules and several hundred hogs.

The reflection from a large fire was seen last evening by passengers on the steamer Cummins when about ten miles off Molokai light. The direction was to the south-west of the light.

It is not probable that the Philadelphia will come to this station. The Mohican is the vessel, so those who know say, which will come to Honolulu.

Repairs are now being made to the Government wharf at Nawiliwili. From thence the workmen will proceed to Waimea and make in getting. whatever improvements are necessary at that point.

Messrs. F. J. Wood, J. Wallace and C. W. Bruce were passengers by the schooner O. M. Kellogg from Gray's Harbor, Wash., yesterday. Mr. Bruce is an Hawaiian and a ship carpenter by trade.

Three-masted schooner O. M. Kellogg, twenty days from Gray's Harbor, Wash., arrived yesterday. Her cargo consists of 361,199 feet rough Northwest lumber, 52,663 feet clear, 74,874 tongue and groove, and 150,000 white cedar shingles, and is consigned to Messrs. Lewers & Cooke.

The Russian courts have reversed the assumption of the American tribunals that when a husband disaster, the wife dies first. The animously that the man would be the first to die, because the woman longer above water.

The first direct shipment from Seattle to Honolulu will be on the bark Oakland, chartered by George J. Willey to take a cargo worth about \$10,000, consigned to Messrs. King & McCandless. Mr. Willey will probably go down, and if he secures a return cargo will likely establish a permanent line. It is now in order to study and work up trade with Guatemala and Mexico, with which Seattle will be doing business in the near future. -[Seattle Trade Register.

Where is this rivalry between the Lucania and Campania to end? No sooner does one of these steamers beat the record than the other immediately makes a new one and the game seems just begun, for her full capacity for speeding. These friendly bouts are making it all the harder for any new recordbreaker that may be proposed, and the Cunarders hold their position well on the Western ocean .- N. Y. Maritime Register.

The first direct steamship line between America and the west coast of Africa has been chartered in New Jersey. It will be known as the African Steamship Com-pany. About half of its \$300,000 is subscribed, and the boats will ply monthly between Philadelphia and Liberia, beginning about October 1. The company, which will receive a subsidy from the Liberian Government of \$10,000 a year, intends to carry the United States mails.

THAT OTHER MISSION.

What a Washington Newspaper Has to Say of Parker, et al.

Apropos of the mission of H. A Widemann, which is told of in another column, the following extract from the Washington Star, regarding the tripartate junket, will be of interest. It appeared in the issue of that newspaper of August 27th, and reads:

San Francisco advices have it that Mr. Sam Parker, who lost a good job as cabinet officer when Queen Liliuo-kalani of Hawali was reduced to the ranks, has expressed satisfaction with the results of the interviewing done by the ex-queen's commissioners, who spent a couple of weeks in this city, and are now on their way home-ward. During their stay in Washington the commissioners behaved in a most mysterious manner, and from the time of their arrival until the hour came for departure played ad mirably their parts as dark-lantern, opera-bouffe conspirators. Mr. Parker says: "We went to Washington to get an answer from the Government as to what it intended to do, and we

got it.
"It was to the effect that the Government would not at present interfere, which was, in substance, the answer furnished by the Senate some time ago. Still, we got much encouragement of a substantial nature, which is to be held in private until we return to Hawaii and render our report to the people who sent us. I can say this much, that it is satisfactory. I staid at the same hotel with Secretary Gresham, and saw and talked with him nearly every day."

When the commission was here; the Administration made several efforts to have it understood that it was treating Mr. Parker and his associates in a very chilly fashion, but Mr. Par-ker says that the commission "saw" all the great men in Washington, in-cluding President Cleveland, and that the interviews were satisfactory. If it has not done so already, the Administration should at once sit with a good deal of force on Mr. Parker, for his statements are in effect charges that the President and his cabinet and all the "great men in Washington" and they are many—were engaged in plotting against the life of the first republic in the Pacific Ocean, and such conduct, in view of public sentiment, would be no less than a crime. As a matter of fact the commission's expedition to Washington was a complete failure. Messrs. Parker, Widemann, Cummins and Seward came here for the purpose of persuading the Presi-dent that he made no error when he officially notified Congress that the United States was responsible, by the acts of its officers, for the dethronement of Liliuokalani and her subsequent lack of employment. What the commission wanted was a pension for Mrs. Dominis, and that it did not succeed

There is no mediciene so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamber-lain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia quieted. The severe pain of a burn or scald promptly releived and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which in neither boat has apparently shown sures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept on hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill.
